

VALUING NATURE

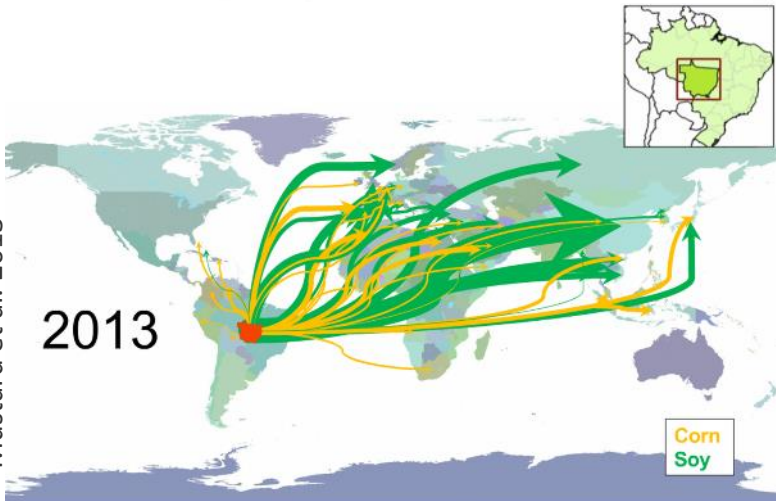

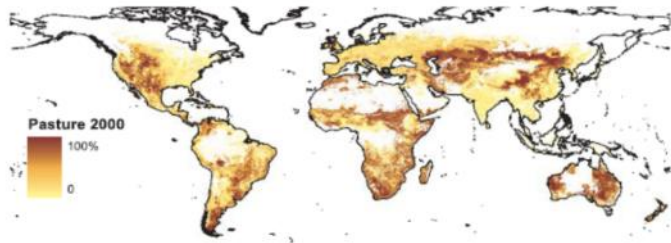

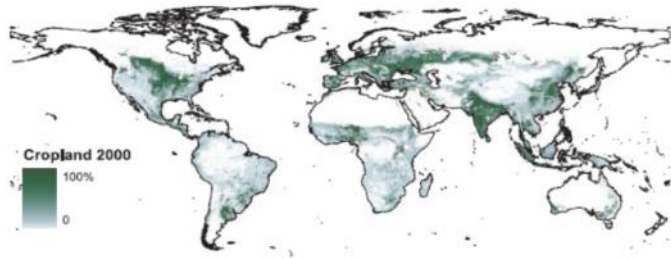

Empirical and spatial analysis of tradable permits in private forest conservation

Marta Lisli Giannichi

Twitter @martalisli

bs10mlg@leeds.ac.uk

Research area

- Large markets for commodities
- Missing markets for conservation

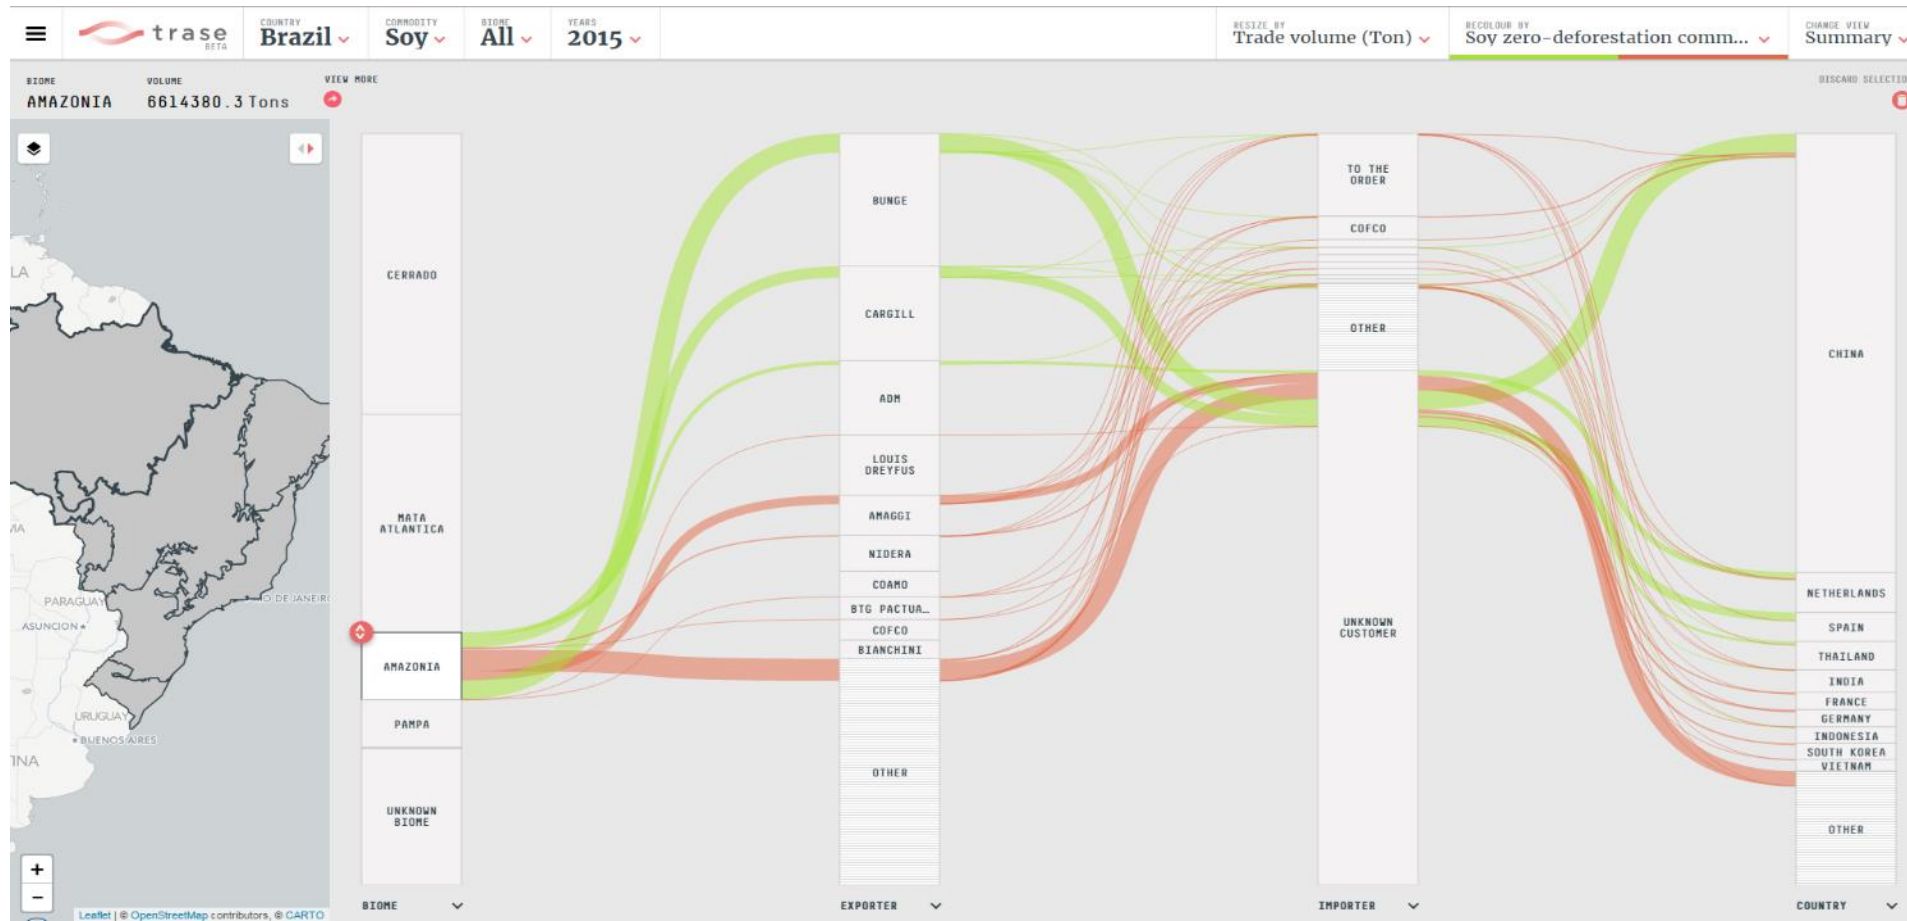

Motivation

designed by freepik.com

- Opportunity to be a part of a trans-disciplinary scientific network
- Engage in the debate with private actors
- Discuss monetary value of a hectare of forest
- Learn and share experiences

Challenges

- How to effectively incorporate conservation in agri-food supply chain?
- How to promote participation of the society?
